& Directions

COURSE CONTENT – 9:00 AM - 5:15 PM

- Underlying [Basic] concepts of childrens' early-age treatment in mixed and primary dentition
- Treatment possibilities and features of FAS Kids – Why FAS Kids is not an aligner treatment
- How to achieve success with FAS Kids and avoid long treatments at a later stage:
 - Get the most out of FAS Kids and communicate efficiently with our treatment planners
 - How to use FAS Kids clinically?
 - How to involve parents and children?

Just another questionable aligner product?
NO, a mix of tools for functional orthodontics
for early-age treatment!

Because it's easier to prevent problems
than to solve them later.

DR. JOSÉ MARIA PONCE DE LEÓN

This course is an introduction to the concept of early treatment of children with mixed or primary dentition as a method of maintaining or restoring the natural functional balance in the child's mouth. To overcome problems of traditional appliances, Dr. Jose Maria Ponce de Leon presents Forestadent's brand-new FAS Kids, a unique functional splint system for kids aged 5 - 12, with its abundant advantages.
